

Hygienist Hank's Helpful Hints

COMBAT EARPLUGS

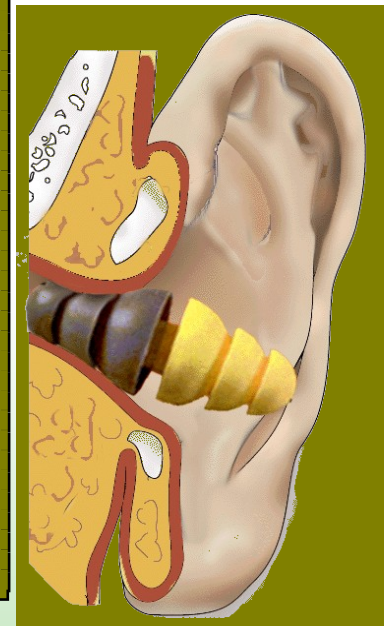

- Insert the **YELLOW** side for weapon fire and in combat

←
A special filter allows speech but activates for weapon fire

- Insert **OLIVE DRAB** plugs for steady state noise

→
noisy vehicles, generators, aircraft, watercraft etc.

- Keep filter holes free of earwax and other debris.
- Check proper insertion for slight tension by gently tugging on plugs.
- Ensure that plugs are cleaned with soap and water and dry whenever returned to case.
